568-M 124

AD68- HS 2K CV Topcoat, 568-M 124 CV Matting Mixing Clear

Application:

all applications where a reduced gloss is required, construction machinery (steel), chassis painting, chassis (color change)

Key Features:

- all gloss levels can be achieved
- suitable on all Glasurit CV primer filler and filler
- suitable for large areas / surfaces
- good leveling
- excellent UV resistance
- excellent surface hardness
- good hiding power
- gloss level can be adjusted via Color Online/Profit Manager

Remarks:

The substrate should be clean, free of dust, rust, oil and grease.
The complete color range for CV-application is covered.

Substrates

- = Very well suited
- = well suited
- = suited in some cases

Remark

Application: After the first thin coat a flash off of 10-15 min is required, after the second coat flash off until mat. Recoatable with itself without intermediate sanding for up to 16 hours after application. Pre-spray adhesion promoter 285-0 CV prior to multi-colour finishing if painted surface was baked and flashed-off for 16 h.

Due to the reduced gloss level not suitable for blend in processes.

Please note: For automotive refinish, repair instructions of vehicle manufacturers, in particular regarding installed sensor technology, must always be observed in addition to the processing instructions given within this document.
